Re: 2012 Application for Financial Assistance

Dear Mr. Porath,

I writing this letter and applying for IDA assistance in hopes we can keep our current pharmaceutical operation in Rockland County.

Cerovene, Inc. is a pharmaceutical company located in Valley Cottage, New York. We have been operating at this location for several years and now require expansion. We are strongly considering relocating our operations for a number of reasons with the most important being a good relationship and incentives for our company. We are currently reviewing two locations, one in Rockland County and the other in Bergen County.

This decision needs to be made within the next two months. I am applying to understand what Rockland has to offer our company in way of tax relief, employee-training benefits, permits and cooperation so we can relocate our operations to a permanent facility. I have to inform you that we are actively applying for the same reasons in Bergen County.

We offer jobs and increased business to the local community as well as work for several different trades we will require for our operations.

Bergen County has already shown great interest in assisting our company not only in what I previous mentioned but also in assistance in relocating as well.

If we can not get the assistance I would hope Rockland could offer, we will be required to move our operations to Bergen County.

Enclosed is a small company presentation as well as the 2012 application.

I look forward to your response and hope we can get a more definitive answer on Rockland's assistance within the next two months for me to make a decision.

Regards,

Item 8.

We are currently strongly considering relocating our operations and facility to Bergen county New Jersey. We have been operating in Rockland County for several years and have hired up to 9 employees. The additional operations to our company would most likely hire up to 25 to 30 future employees over the next two years.

We are interviewing with Bergen County as well for a location we are currently reviewing for all of our pharmaceutical operations. In the relocation all of the New York operations will be moved to the New Jersey site.

Our company requires immediate growth to compete on speed to market and FDA filings.

We are hoping Rockland County will work with us in the fastest possible fashion so we can make a decision with tin the next two months

F. Analysis of the costs and Benefits of the project:

Keep things in perspective, below is a brief chart that hopefully describes the benefit to Rockland County as a whole.

Year	Payroll	Increase of growth by Employees	Increased revenue for Rockland County local tradesmen		Increased revenue for Rockland County local businesses	
			Yes	No	Yes	No
2013	\$ 1,000,000	13	√		√	
2014	\$ 1,500,000	18	√		√	
2015	\$ 2,500,000	27	√		√	
2016	\$ 3,000,000	35	√		√	

The greatest benefit coming from the employee's hired and additional tax revenues that will be generated from the employees to other businesses located in the area as well as the required trades that will be needed to construct operations. Future property and sales taxes will need to be determined. The future of the company remaining in the Rockland area will only make sense for Rockland as potential future revenue.

Initially we are looking for tax abatement on all avenues to assist us in make a decision to continue our operations in Rockland County.

LABOR POLICY

County of Rockland Industrial Development Agency
Declaration of Motivation
For the employment of local trades people
During the construction phase of IDA-benefited projects

The County of Rockland Industrial Development Agency (IDA), formed pursuant to the New York State Industrial Development Act (the "Act"), was created for the purpose of promoting employment opportunities for, and the general prosperity and economic welfare of Rockland County residents. The IDA is authorized by the Act to enter into agreements making benefits available to qualified applicants in order to facilitate the location or the expansion of their businesses or facilities in Rockland County. When the IDA approves a project, these benefits are made available to the applicant.

Construction jobs, although limited in time duration, are vital to the overall employment opportunities in Rockland County. The IDA believes that companies benefiting from its programs should encourage the employment of local contractors and professionals during the construction phase of projects. In this way the IDA can generate significant benefits to advance the County's general prosperity. It is, therefore, the policy of the IDA that firms benefiting from its programs be encouraged to promote employment opportunities in Rockland County during all project phases, including the construction phase.
