The project will consist of a single story data center of 150-200,000 square feet with potential expansion to 250,000 sq. ft. FFE to operate the facility will be purchased and kept current.

Notes	Although this a negotiated PILOT project, the company report 41 jobs at its Generating Plant . The taxing entities asked the Agency to approve a PILOT. The terms of the PILOT are subject of a settlement of a tax action brought by the Company against the taxing entities. The settlement will allow repayment of the overcharges to the Company over a period of 10 years thereby easing the repayment burden on the taxing entities.

Note: * To avoid a tax grievance, the Company and taxing entities entered into a PILOT that allowed the taxing entities to receive higher PILOT in early years and then decline in later years . This project is for construction and equipping of 6 buildings of the Pfizer Campus which were vacated when Pfizer moved out of the state, and thousands of jobs were lost. The project will create more than a thousand jobs once completed. Improvements and leasing will be completed over a 10 year period.

Notes	This a TAX EXEMPT project type. The Project was unable to complete its planned improvements due to business issues and requested that the Agency extend its sales tax abatement period to 2022. The project will complete renovation of vacant, underutilized warehouse into a secure storage property for fine arts serving museums in the New York Metro Metropolitan area. In 2018, the firm requested that the Agency extend their sales tax abatement to enable expanded utilization of the storage space. Job creation currently provides for security at the location. The development of storage space was supported locally as it increased property taxes to the local taxing entities. A three year extension of the sales tax abatement period was approved by the board in 2022. The agency will closely monitor this project. A PILOT for the project was approved.
