Describe in detail company background, products, customers, goods and services. Description is critical in determining eligibility (Attach document, if necessary): CHPE LLC develops unique energy transmission projects in an environmentally responsible manner. We use proven high-voltage direct current ("HVDC") cable technology to link trapped generation resources such as wind, hydro and other renewables with markets that are experiencing acute power shortages. Our approach to HVDC avoids the visual impacts of overhead transmission. We install our projects either underwater or underground. These buried lines increase the electric grid's safety and reliability, while providing hardened infrastructure that is less susceptible to damage from natural disasters.

CHPE LLC, or its designee (the "Company")  
Project Supplement to Application for Financial Assistance to  
Rockland County Industrial Development Agency (the "Agency")

If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and County/City/Town/Village?

If the Company is unable to obtain Financial Assistance for the Project, it is likely that New York State will encounter difficulty meeting its green energy goals. The Transmission System will comprise a significant portion of the renewable energy needed to meet New York State's 70x30 green energy goal. It is expected to induce creation of significant jobs and economic activity on a Transmission System-wide basis including more than 1,100 direct full-time jobs in New York State over the 4-year construction period, more than 800 long-term jobs in New York state once operational, \$0.6 billion in wages during the approximately 4-year construction period, and \$5.6 billion in wages during the first 30 years of operations on a statewide basis. The majority of workforce will be sourced with union labor. Furthermore, it is expected that the Transmission System will induce \$1.5 billion in higher economic output during the approximately 4-year construction period and \$14.8 billion during the first 30 years of operations on a statewide basis. Without the Project and the Agency's assistance, this statewide economic impact would not occur.

I) Project Information (Pages 6-7)

Estimated costs in connection with Project:

The Company does not have definitive costs per mile for the Project. However, based on estimated average costs of the Transmission System, the cost of the Project can be estimated to be approximately \$203 million.<sup>2</sup>

Sources of Funds for Project Costs:

The Transmission System will be financed through a combination of private sector financing and Applicant equity. Amounts and terms of each source of financing have not yet been determined, but it may include a mortgage on the Project Facility in Rockland County and on Transmission System land and improvements in other counties; a mortgage on the Transmission System converter station site located in New York City; an assignment of contracts, such as the Transmission Services Agreement and construction contracts; an assignment of options on real estate; UCC filings; and a pledge of the equity interest in CHPE LLC held by TDI-USA Holdings LLC.

Private sector financing will be sought for the entire Transmission System and not on a county-by-county basis. Accordingly, the total amount to be borrowed to finance the Project has not yet been determined.

K) Site plan submission and approval: (Page 8)

The Project is permitted under New York Public Service Law Article VII and as such is a Type II action under SEQR requiring no further review. A copy of the certificate from the New York Public Service Commission is available for review at <https://chpexpress.com/wp-content/uploads/2020/03/permit-PSC.pdf>.

## Payment In Lieu of Tax Agreement (PILOT)

### Policies & Process Guidelines

A Payment In Lieu of Tax Agreement (PILOT) is a negotiated tax abatement or structured property tax schedule which may be obtained under the authority of the IDA. (Please see the IDA's Uniform Tax Exemption Policy for more detail regarding IDA real property tax abatements and other incentives at [www.rocklandida.com](http://www.rocklandida.com).)

Unlike many industrial development agencies, the Rockland IDA *does not* have the authority to impose a PILOT, or any type of property tax abatement or condition, on the local taxing jurisdictions. Further, it is at the sole discretion of the local taxing jurisdictions to participate or not.

However, the Rockland IDA *does* have the authority to facilitate and implement a PILOT should the project applicant and taxing jurisdictions agree to the terms and structure of a property tax agreement.

Given the above, the IDA does not either advocate for or against a PILOT. As such, it is the sole responsibility of the IDA project applicant to determine if the involved tax jurisdictions choose to participate in a PILOT agreement and then negotiate the terms of the agreement.

To assist IDA project applicants in the PILOT process, however, the following guidelines are provided:

- Provided the project is eligible for consideration to receive IDA incentives, the applicant must indicate "yes" or "no" that a PILOT is requested on the IDA's "Application For Financial Incentives", Section D, Page I-5.
- If the project is eligible for consideration, the IDA board will consider an Inducement Resolution that authorizes the applicant to request and negotiate a PILOT with the local taxing jurisdictions.
- Taxing jurisdictions eligible to participate in a PILOT include the town in which the project is located, the affected village (if applicable), and the affected school district. The County does not participate in PILOTs (unless the project has a unique County-wide impact). The IDA can assist in identifying the affected taxing entities and the individuals from the taxing jurisdictions that should be contacted regarding a proposed PILOT.
- The first step in the PILOT process is arranging an (informal) meeting with all the taxing jurisdictions, the IDA, and the applicant so a discussion can be held regarding the applicability of a PILOT and what structure may be considered. It is recommended that this meeting take place following IDA inducement (which confirms the project's eligibility for incentives and a PILOT).
- While the IDA Executive Director can assist in arranging this first meeting, it is ultimately the responsibility of the applicant. It is recommended that the meeting include representatives from all the taxing jurisdictions and the IDA.
- Each PILOT structure is unique. As such, each PILOT – if agreeable to the taxing jurisdictions – reflects a negotiated structure that addresses the financial need of the applicant, while meeting the economic development objectives of the taxing jurisdictions and the IDA.
- A strong, stable tax ratable base and revenue predictability are often key objectives of the taxing jurisdictions. It is recommended that the applicant recognize and address both of these elements when proposing a property tax structure. While the applicant is responsible for proposing and negotiating a PILOT, the IDA and town assessors are often resources that can assist in providing historical references of similar project PILOTs, current assessed value of the site, etc.
- Special Note: Taxing jurisdictions will not formally consider a PILOT that involves a property that has a pending tax grievance. While a PILOT may resolve issues involving a tax dispute, any pending grievance(s) must be withdrawn by the property owner prior to final PILOT approval.
- Each taxing jurisdiction has the individual choice to participate (or not) in a PILOT. It is not required that all taxing entities participate in a PILOT.
- If and when a PILOT is informally agreed to by the participating parties, the IDA counsel will prepare a draft agreement for review by all.
- A formal resolution for PILOT approval is required of all taxing jurisdictions. A copy of the resolution(s) must be provided to the IDA. It is the responsibility of the applicant to ensure the matter is formally considered and adopted by the involved taxing jurisdictions. While the County does not provide tax abatements (unless specifically included),

the County does participate in the approval process, by both formal resolution and signing of agreements. The County will only consider approval after all the other local taxing jurisdictions have approving resolutions in place.

- It is important to note that the PILOT is not considered to be approved until all participating parties have passed approving resolutions and have signed a final PILOT agreement.
- Regardless of when a PILOT is formally approved, it will not go into effect until the next March 1 taxable status date.

As with each of its incentives, the IDA has a fee schedule for PILOTs. The applicant is required to pay all applicable fees upon project/PILOT closing. Please refer to the PILOT fee schedule at [www.rocklandida.com](http://www.rocklandida.com) to determine applicable fees.

*As a final note, because each Rockland IDA PILOT is unique, there is an inherent flexibility in the (informal) negotiating and meeting process. To this end, the IDA encourages the applicant to discuss the matter with the IDA Executive Director and IDA Counsel to ensure that the process is as effective and efficient as possible for all parties.*

### LABOR POLICY

**County of Rockland Industrial Development Agency  
Declaration of Motivation  
For the employment of local trades people  
During the construction phase of IDA-benefited projects**

The County of Rockland Industrial Development Agency (IDA), formed pursuant to the New York State Industrial Development Act (the "Act"), was created for the purpose of promoting employment opportunities for, and the general prosperity and economic welfare of Rockland County residents. The IDA is authorized by the Act to enter into agreements making benefits available to qualified applicants in order to facilitate the location or the expansion of their businesses or facilities in Rockland County. When the IDA approves a project, these benefits are made available to the applicant.

Construction jobs, although limited in time duration, are vital to the overall employment opportunities in Rockland County. The IDA believes that companies benefiting from its programs should encourage the employment of local contractors and professionals during the construction phase of projects. In this way the IDA can generate significant benefits to advance the County's general prosperity. It is, therefore, the policy of the IDA that firms benefiting from its programs be encouraged to promote employment opportunities in Rockland County during all project phases, including the construction phase.

The IDA requires companies benefiting from its programs to pay prevailing wages, in and during the project construction phase and to make effort to employ local contractors and professionals. Alternatively, an applicant can enter into a Project Labor Agreement ("PLA") provided the PLA is approved by the affected unions and contractors and is satisfactory to the IDA.

Upon receipt of IDA benefits, all applicants will be required to provide to the IDA's Executive Director the following information:

1. Contact information of the applicant contact person who will be responsible and accountable for providing information about the bidding for and awarding of future construction contracts relative to the application and project.
2. Description of the nature of construction jobs created by the project, including, in as much detail as possible, the number, type and duration of construction positions.
3. A *Construction Completion Report* listing the names and business locations of prime contractors, subcontractors and vendors who have been engaged in the construction phase of the project and confirmation that prevailing wages have been paid.

The IDA will post the contact information and description of construction jobs available on its website, [www.redc.org](http://www.redc.org) "IDA."

The IDA reserves the right to modify and/or rescind benefits granted to any company under its *Uniform Tax Exemption Policy* for the failure to comply with any of the provisions contained herein.

*Approved/Effective: November 30, 2004; Amended June 11, 2013*
